Monthly Report on Program Occupancy Rates for Supportive Housing Programs

Definition of program occupancy rate: A percentage that reflects the average number of tenants residing in a program per night relative to the program capacity.

Purpose of Report: To monitor occupancy rates on an ongoing basis.
Date of Data Pull: 1/9/2014
Date of report issuance: 1/15/2014
Report prepared by: Catherine Kendall, Database Administrator

Methodology: CSP data will be pulled for each report period, which in this instance consists of a single calendar month. The occupancy number is calculated by summing the length of stay within the report period for all tenants in a program and then dividing that sum by the number of days in the report period.

Occupancy number: \[
\sum((\text{report end date (or exit date in the event the tenant exits the program)} - \text{report start date (or entry date in the event of a new tenant)}) + 1) \div \text{number of days in report period}
\]

Occupancy rates will be calculated by first rounding the program occupancy number to the nearest whole number. Next the rounded program occupancy number will be divided by the program capacity, which is defined in the current fiscal year Program Outcome Plan.

Limitations of analysis: CSP data will not have been subjected to quality assurance prior to data extraction.

4. VOAGO - Veterans is not a HUD CoC funded program but receives VA funding. As of 01/01/2011 it is mandatory for this program to participate in CSP.
5. The following programs house clients that are receiving CHN Shelter Plus Care subsidies: CHN-Family Homes (SRA /6 households); CHN-RILPTI (TRA/15 households); Southeast Scattered Sites (TRA/2 households).
6. CMHA allows over-leasing for this program.
7. Program decreased capacity from 92 to 72 as of June 1, 2013.
8. TLP maintained an extra unit while consolidating from two locations to one location and that extra unit remains occupied.

Grey shading denotes a percentage under 95% occupancy rate; goal is for a 95% occupancy rate. For SPC programs, the goal was increased to 100% as of 07/01/2013, so gray shading will indicate an average occupancy below 100%.
