

Monthly Report on Program Occupancy Rates for Supportive Housing Programs

Definition of program occupancy rate: A percentage that reflects the average number of tenants residing in a program per night relative to the program capacity.

Purpose of Report: To monitor occupancy rates on an ongoing basis.

Date of Data Pull: 12/11/2015

Date of report issuance: 12/15/2015

Report prepared by: Catherine Kendall, Database Administrator

Methodology: CSP data will be pulled for each report period, which in this instance consists of a single calendar month. The occupancy number is calculated by summing the length of stay within the report period for all tenants in a program and then dividing that sum by the number of days in the report period.

Occupancy number: $\sum((\text{report end date (or exit date in the event the tenant exits the program)} - \text{report start date (or entry date in the event of a new tenant)}) + 1) \div \text{number of days in report period}$

Occupancy rates will be calculated by first rounding the program occupancy number to the nearest whole number. Next the rounded program occupancy number will be divided by the program capacity, which is defined in the current fiscal year Program Outcome Plan.

Limitations of analysis: CSP data will not have been subjected to quality assurance prior to data extraction.

²Project in lease-up phase

³The following projects house clients that are receiving CHN Shelter Plus Care subsidies: CHN-Family Homes (TRA/4 households); CHN-RLPTI (TRA/15 households).

⁴Three of the 13 units can house up to two individuals and these units are frequently but not always assigned to couples in which both partners are Rebuilding Lives eligible.

⁵Where exceeding 100%, project served RL individuals in Non-RL units or eligible roommates/couples.

⁶Where occupancy is greater than 100%, the project was asked to serve more households due to availability of funds. New provider, Columbus Area, took over the project as of July 2015.

⁷YMCA 40 W. Long St. Expansion is a Shelter Plus Care (SPC) project, so occupancy goal for this project is 100%.

⁸Leased-up in anticipation of vacancies.

⁹Project in transition, due to renovation work projected to be finalized June 2016.

Grey shading denotes a percentage under 95% occupancy rate; goal is for a 95% occupancy rate. For SPC projects, the goal was increased to 100% as of 07/01/2013, so gray shading will indicate an average occupancy below 100%.
